

# FNAF:SB redraw??

I got bored and wanted to play around with some Krita filters - so I decided to redraw Freddy and Monty!

Fun fact!: Freddy and Monty (the originals) were the first things I ever completed on my Window Surface tablet! I made them for a couple of my friends ☐☐

It's crazy how much my art has changed in only four months ☐☐

while the character design in FNAF:SB is pretty cool, I don't ever think I could play the game since I am a weak turd who is easily spooked and will have a panic attack if jump scared ☐☐
