space dandy! □□

I did a drawing of Space Dandy and the gang from the anime "Space Dandy"!

Space Dandy holds a special place in my heart, it is a really good show, and I could re-watch episodes for days. ❤

Not only that, but I am really proud I drew a guy! Me and some of my close friends also ramble how guys are hard to draw, so it was neat stepping out of my comfort zone! I also really like the colors, and Meow (to the left) and Q.T (to the right) I think look lovely too!

This piece has to be one of my all time favorites! ❤
