wooby!

This is Wooby!

Wooby is a cross between a woober and an oogie! I made Wooby out of socks!

What is a woober or an oogie you may ask? Well, a "woober" is a way of folding socks, and an oogie is a creature that my dad 3d prints. I eventually want to create more oogies, but that's for another day.

S U S...

For a while, I was really into making "Among Us" crewmate plushies. I made a whole bunch of them, but for now here is just one of them.

Maybe I'll post the rest...

sock dog!

I made this doggo out of socks, and the collar is actually a old watch band!

I really like this long dog, and I keep it at my desk! ♥
