# spoiler mode screenshots

I took some screenshots of my spoiler mode, or technically known as the operator.

The title would have been "operator screenshots" but I did not want to do that since on the side of my website it tells you what was recent / updated and I would not want to unintentionally give spoilers.

Went with a angel princess sorta theme, which is funny considering 98% of operators are either emo, edgy or neutral.

# frog kid ☐☐

I would like to introduce you all to Frog Kid.

Frog Kid is my younger sister ShmoopyDoopy's operator!

Frog Kid is really cool. Respect frog kid. ☐☐

I plan on posting more about frog Kid!

(vibin with frog kid)

(Frog Kid on one of those big grinner gun things is kinda funny looking)

# frog kid strikes again! □□□□

I know I already wrote about frog kid.

BUT, I have more pictures of frog kid so I'm going to post them here.

This time, I have some captura pictures of frog kid! □

# POV: Frog Kid hacks your account...

ok - sorry for the dumb title and the fact that I seem to be obsessed with writing about Frog Kid

BUT I have a funny pic of Frog Kid hacking a terminal I thought I might share...

# night under lua with drifter and umbra ☐☐☐☐

I took some pictures with my Drifter and Excalibur Umbra!

They look so cute together ☐☐ and the drifter camp has such lovely lighting

# drifter and her loyal companion ☐☐

I took some pictures of my drifter and her kubrow, Princess Pinky!

Kubrows are so cute ♥♥♥

# drifter and her infested pupper

My drifter loves her kubrow - but she equally loves her little predasite pup too!

# hehe operator no work ☐☐

Random post-

but there is a bug where when you use your operator/drifter in the drifter camp captura scene, this happens...

ngl it's kinda funny but I hope its fixed at some point because I like taking pictures of my op and drifter in the camp

# notice anything different? □□

I changed up both my operator and drifter!

The difference? Both my operator and drifter now have heterochromia - they each have a pink and brown eye. The difference between the two of them is my drifter's right eye is pink, while my operator's left eye is pink.

I guess it's kind of weird the color pattern is in reverse for them, but If you think about it's not that strange since drifter is not a older operator but instead the operator in another timeline.

# random drifter camp stuff-

I used a bunch of those Lunar New Year posters you can buy on the market for 1 credit to build a couple of things in the drifter camp.

~~I also may have not bought 3,000 of them...~~

A little tent with some birbs chillin in it!

A pobber in a small hut! I wonder what he's saying to the kavats... ☐☐

A romantic picnic scene!

~~I'm not crazy, you're crazy!~~
