

more sevagoth ?

so ummm....

As the title states, more Sevagoth.

I was gonna post this one with the last post, but since the background differs it gets its own post.

I also had more I was gonna post on this page, but every time I try to upload them, my website complains "file too large" ☹️

maybe ill try to fix / add them someday, but that day ain't today ☹️
