- space doge!

space doge!

Today I present to you my school art project for the end of 7th grade!

It's a doggo in space, or to be more specific [Ashley](#), who was the first Pound Puppy I ever received!

At the end of 7th grade, we all had to create a piece of artwork to be featured in a end-of-the year art thing, so I decided to combine my favorite things, puppies and space!
